## Friendly Autumn Scarecrow

This cute little scarecrow is 22 inches tall! Students will love making a fun Fall decoration to keep for their very own. Parents will love it too! It can be displayed to create a festive atmosphere from September through November.

### YOU WILL NEED

- Four pieces of cardstock for each scarecrow
- Scissors
- Push Pin
- Crayons/Markers/Colored Pencils
- Paper Fasteners/Brads

### INSTRUCTIONS

1. Copy the four scarecrow pages onto cardstock.
2. Color all of the parts of the scarecrow.
3. Cut out each piece of the scarecrow.
4. Using a push pin, make a small hole everywhere you find a bold "X"
5. Use paper fasteners to attach the body parts of the scarecrow.

Make sure you place the head ON TOP OF the chest,

Top section of arms ON TOP OF the chest,

Top section of legs BEHIND the chest, and

The bottom sections of the arms and legs ON TOP OF top sections.

### MORE FUN IDEAS

- Use the flower and the crow to decorate your scarecrow how ever you'd like. (If you cut a small slit under the crow's feet you can slip him onto your scarecrow's hat or arm).
- Make your scarecrow extra cute by gluing pieces of raffia wherever the scarecrow's stuffing is showing and adding some highlights with glitter glue.
